The Muthoot Group, with a reputation that has been shaped over decades with high quality practices,

total customer satisfaction and steady growth, spanning 130 years in the field of business, is a legacy

built on God-given values of trust, truth, transparency and tradition and has become one of the top

24

business houses today by the grace of God.

Muthoot takes its name from its Family, which is a branch of a traditional Orthodox Christian family,

based in Kozhencherry, a small town in the erstwhile primary state of Travancore (Kerala). In the year

1887, Muthoot Ninan Mathai (Patron Founder of the group), started in a humble way as a retail and

whole-sale trader of grains at Kozhencherry. The family partition took place in the year 1979 which led

to the Genesis of Muthoot George Group (MGG). Over the years business grew gradually into gold

loans and chits during 1950's and expanded into Financial Services, Information Technology, Media,

Healthcare, Education, Power Generation, Infrastructure, Plantations, Precious metal, Tourism, and

Hospitality..

About

Muthoot Institute of Technology and Science (MITS) is promoted by Muthoot M. George Institute of Technology, a Section 25 Company within the Muthoot Group. MITS is a self financing technical institution offering postgraduate and undergraduate engineering programmes, situated in the industrial suburb of Kochi, close to the Smart City and Info Park, approximately 15 kms from Vytilla Junction towards Muvattupuzha on the Cochin Madurai National Highway. The promoters with their commanding presence in the domains of Financial Services, Hospitality, Healthcare, Renewable Energy and Information Technology, are committed to building MITS as a centre of excellence, focusing purely on merit. This "temple of learning" will provide to the students, state-of-the-art infrastructure, highly qualified and proficient teachers from various faculty of engineering and allied streams, embedded in a conducive environment where focus will be on their harmonious development.

Vision

To be a centre of excellence for learning and research in engineering and technology, producing intellectually well-equipped and socially committed citizens possessing an ethical value system.

embedded in a conducive environment where focus will be on their harmonious development.

Vision

To be a centre of excellence for learning and research in engineering and technology, producing intellectually well-equipped and socially committed citizens possessing an ethical value system.

The Muthoot Group, with a reputation that has been shaped over decades with high quality practices, total customer satisfaction and steady growth, spanning 130 years in the field of business, is a legacy built on God-given values of trust, truth, transparency and tradition and has become one of the top business houses today by the grace of God. Muthoot takes its name from its Family, which is a branch of a traditional Orthodox Christian family, based in Kozhencherry, a small town in the erstwhile primary state of Travancore (Kerala). In the year 1887, Muthoot Ninan Mathai (Patron Founder of the group), started in a humble way as a retail and whole-sale trader of grains at Kozhencherry. The family partition took place in the year 1979 which led to the Genesis of Muthoot George Group (MGG). Over the years business grew gradually into gold loans and chits during 1950's and expanded into Financial Services, Information Technology, Media, Healthcare, Education, Power Generation, Infrastructure, Plantations.

PROGRAM 5

5. Apply positioning methods of elements on a webpage with div elements and their corresponding classes using two external stylesheets. Compare the output with absolute, and relative positioning of div elements..

PROGRAM

```
<html>

<head>

<title>Positioning</title>

<style>

*

{

box-sizing: border-box;

}

body

{

background-color:grey;

}

.box

{

display: inline-block;

width: 100px;

height: 100px;

background: red;

color: white;

}
```

```
#two  
  
{  
position: relative;  
top: 20px;  
left: 20px;  
background: blue;  
}
```

```
#three  
  
{  
position: relative;  
top: 20px;  
left: 20px;  
}
```

```
#four  
  
{  
position: relative;  
top: 20px;  
left: 20px;  
}
```

```
</style>
```

```
</head>
```

```
<body>
```

```
<u><h1>Relative positioning</h1></u>
```

```
<h3>Relative: An element with position: relative is positioned relatively with the other  
elements
```

which are sitting on top of it. If we set its top, right, bottom, or left, other elements will not fill

up the gap left by this element. An element with its position set to relative and when adjusted using top, bottom, left, and right will be positioned relative to its original position..Eg:-</h3>

```
<div class="box" id="one">One</div>
```

```
<div class="box" id="two">Two</div>
```

```
<div class="box" id="">Three</div>
```

```
<div class="box" id="">Four</div>
```

```
<br><br>
```

```
<u><h1>Absolute positioning</h1></u>
```

<h3>An element with position: absolute will be positioned with respect to its nearest Non-static

ancestor. The positioning of this element does not depend upon its siblings or the elements which are at the same level.It refers to a CSS (Cascading Style Sheets) positioning property used to place an HTML element within a web page in a very specific and fixed location.

Elements with absolute positioning are removed from the normal document flow, meaning they

don't affect the layout or positioning of surrounding elements.Eg:-</h3>

```
<div class="box" id="one" ><p>one</p>
```

```
<div class="box" id="two"><p>two</p>
```

```
<div class="box" id="three"><p>three</p>
```

```
<div class="box" id="four"><p>four</p>
```

```
</div></div></div></div>
```

```
</body>
```

```
</html>
```

OUTPUT

Relative positioning

Relative: An element with position: relative is positioned relatively with the other elements which are sitting on top of it. If we set its top, right, bottom, or left, other elements will not fill up the gap left by this element. An element with its position set to relative and when adjusted using top, bottom, left, and right will be positioned relative to its original position..Eg:-

Absolute positioning

An element with position: absolute will be positioned with respect to its nearest Non-static ancestor. The positioning of this element does not depend upon its siblings or the elements which are at the same level. It refers to a CSS (Cascading Style Sheets) positioning property used to place an HTML element within a web page in a very specific and fixed location. Elements with absolute positioning are removed from the normal document flow, meaning they don't affect the layout or positioning of surrounding elements. Eg:-
